

Straight Flush Royal Flush Tournament Rules and Details

Players who opt into our Fall 2019 SF/RF promo have a chance to win a \$1,100 Dec 1st Main Event Seat (\$1,000 pre paid value) if they flop a straight flush or royal flush on the day they opt into the \$5 promotion.

If the funds that are collected throughout the promotion do not award the \$1,100 Dec 1st Main Event Seat then they will go into a tournament on November 27th, 2019 (time TBD).

Players who opted into the event are automatically part of that tournament and have the option to play with the chips they earned or purchase more for a max starting stack of 25,000 chips.

Every player pays \$10 to participate no matter their starting stack then for every \$5 entry they receive 1,785 chips. So a max stack would be $\$70 + \$10 = 25,000$ chips

Players who have less than 15,000 chips to start are not eligible to re-buy into the event for \$30 during the first 9 levels for their starting stack only. End of level 9 there is a optional \$15 add on for another 20k in chips.

We will collect the \$1,000 needed for a pre paid seat easily and might have the ability for a second seat with re-buys & chip ups & add-ons.

Seats are NOT transferable if a player were to win one of the seats and must be used on the day of the event or surrendered to host charity.

Players who win a \$1,000 main event seat for Dec 1st and also have a charity backer \$5k Guarantee seat must transfer their \$5k seat to a player who currently does not already have a seat. The 20% CB rules still apply with the original entry returned and 20% of profit.
